

## **A NEW LIGHT**

### ***The Mancunium Consort***

**Co-Directors: Harry Mobbs and Joseph Taylor**

The Mancunium Consort is a vibrant young professional ensemble with early music at its heart, the newest light of Northern music-making. This concert will showcase the best of the group's repertoire, and the core of its first album, 'A New Light', weaving together multiple different branches of choral music from Europe and America. The listener will experience a journey through time: an eclectic mix of music from Mouton in the 15<sup>th</sup> century, by way of Palestrina, Purcell and Brahms, up to contemporary composers including Gorecki and Whitacre.
